About Me:

Mobile (ReactNative, Flutter) and Web (React, Vue, VanillaJS, Node, PHP) developer,
work on both the user and server interface.

What can I do:

- Build customised websites to the highest specifications.
- Work to under pressure and to tight deadlines.
- Come up with solutions to seemingly intractable problems.
- Carry out routine site maintenance. Drive projects forward.
- Work closely with other developers and professionals.
- Produce feasibility and usability reports for projects as well as accurate cost projections.
- Organize and manage multiple priorities simultaneously.
- Quickly fit into any existing team of developers.
- Building reusable components and front-end libraries for future use.
- Collaborate with system engineers, data scientists, frontend developers and software developers to implement
  solutions that are aligned with and extend shared platforms and solutions
- Work through a project life cycle & Communicate confidently.

See my website for my projects (**Link**)
